

Purifiner®

has

The Answer.

Presenting the new Purifiner **TriPlex™** and **DuPlex™** filter systems, available with UV sterilizers – The answer for many small system water treatment problems, from seasonal camps to process treatment. With sleek, rugged stainless steel brackets - available in 10" and 20" full flow housings with flow rates to 20GPM. Mix and match cartridges to achieve your own answer, from sediment and chlorine reduction to absolute cyst and parasite control. Ask about Purifiner's quality line of nominal cartridges and Waterite's line of **ExcelPlus+™** absolute rated cartridges, and high performance **hyapurion** cartridges to assist in your system solution.
